EDUCATION

Georgia Institute of Technology

Bachelor of Science in Electrical Engineering

Atlanta, GA

Aug. 2025 – May 2029

Hoover High School

Hoover, AL

Aug. 2021 – May 2025

EXPERIENCE

Founder/CTO

rmautism.ai

December 2025- Present

Atlanta, GA

- Built an iPhone-based ARKit eye-tracking pipeline extracting gaze vectors at 120 FPS
- Implemented gaze normalization and AOI mapping to quantify social vs. geometric attention patterns
- Developed backend video-processing pipeline generating behavioral biomarker feature vectors
- Accepted to present research findings at the 2026 American Psychiatric Association Annual Conference

Clinical Research Intern

ALLY Psychiatry

January 2024- January 2025

Atlanta, GA

- Assisted clinicians in behavioral assessment workflows and data collection for neurodevelopmental evaluations
- Observed diagnostic procedures and contributed to organizing patient data for research use
- Gained exposure to clinical evaluation protocols informing design of objective screening tools

Cardiovascular Research Laboratory Assistant

University of Alabama Birmingham

Summer 2023

Birmingham, AL

- Supported cardiovascular physiology research using rodent models in a university medical laboratory
- Assisted with experimental procedures, instrumentation setup, and data acquisition workflows
- Maintained structured lab records and ensured compliance with research protocols

Chess Coach — Alabama Nonprofit Initiative

Chesskidsnation

May 2024- Present

Hoover, AL

- Partnered with an Alabama nonprofit to provide free chess instruction to students in underserved communities
- Taught strategic problem-solving and competitive play to 100+ elementary and middle school students statewide

PROJECTS

EnergyHack@GT- Georgia Tech Energy Hackathon | *Python, Devpost, Luma*

October 2025- Present

- Led technical infrastructure for Georgia Tech's flagship energy hackathon with 200+ participants
- Built event platform stack including registration, team formation, and project submission workflows
- Integrated Devpost and Luma systems to support live judging and multi-team evaluation
- Coordinated engineering execution across organizing team to deliver live production deployment

GhostQA - AI-Powered Automated Web Testing | *Python, React*

2025

- Built automated QA agents using Playwright and GPT-based reasoning to detect UI and functional regressions
- Designed browser-level test orchestration and failure-reporting pipelines for continuous integration workflows

Georgia Tech Idea2 Prototype

Participant

2025

Georgia Tech

- Selected for Georgia Tech's entrepreneurship program supporting early-stage product development
- Developed and pitched a prototype concept through structured mentorship and workshops

TECHNICAL SKILLS

Languages: Java, Python, C/C++

Frameworks: React, FastAPI

Developer Tools: Git, VS Code

Libraries: pandas, NumPy, OpenCV, Mediapipe
